

DRAFT - FOR REVIEW

Supplier qualification status packet

Capability-fit labels, a dated gap matrix and the safe route for a non-sensitive RFI.

United Armor Xperts A.S. | Confirmed 2 September 2026 | Capability level | Public-safe

Capability lines - labels, not qualified products

- Land: SENTINEL, BULWARK, PRAETOR.
- Air: TALON, VITRAGAMI.
- Sea: TRITON.
- Infrastructure: CITADEL, VAULT, FORGE.

These are mission-framing labels. UAX claims no qualified, tested or fielded product, no protection level and no technology-readiness level.

Qualification gap matrix

Item	Status	Authority / evidence owner	Confirmed
Company registration as A.S.	Company statement	Turkish Trade Registry	2026-09-01

KVKK/GDPR production sign-off	Implementation present; counsel sign-off pending	Qualified privacy counsel	2026-09-02
Native Japanese, Turkish and Arabic review	Not complete	Native reviewers	2026-09-02

First contact - a non-sensitive RFI

Send only who you are, the capability category being scanned and the general end use. A qualified technical review, if both sides want one, follows identity and authority verification, need-to-know assessment, a mutual NDA and applicable export-control screening. An official email address does not replace that sequence.

This packet contains no performance figure, protection level, geometry, formulation or test data. Status is never upgraded because of a meeting, introduction or pending decision.
